👤 PROFILE

Experienced Software Developer adept in bringing forth expertise in design, installation, testing and maintenance of software systems. Proficient in various platforms, languages, and embedded systems.

💼 EMPLOYMENT HISTORY

Software Engineer at Ublik, Havana
June 2022 — January 2023

- Created a Continuous Integration/Continuous Deployment (CI/CD) pipeline that reduced time-to-deployment from 1 day to 1 hour.
- Designed and developed a scalable, high-availability web application that handled 100 concurrent users with minimal downtime named Ultima Milla.
- Led a team of developers to successfully complete a major software project on time and within budget.
- An engineering solution was made for the Official Civil Registry of Ecuador, in which 2 systems were developed. One in charge of citizen requests (client) and the 2nd in charge of process administration (back office).

Frontend Developer at Zenith, Havana
January 2023 — March 2024

- Conducted code reviews and mentored junior developers to improve code quality and ensure adherence to best practices
- Implemented automated testing that increased code coverage to 90%, reducing the number of production issues by 95%
- Developed a comprehensive set of engineering best practices to improve overall development efficiency
